

About the eTwinning project European Youth

In the project "European Youth" students & teachers want to know people from different European countries and make new friends and learn about each other's daily lives, schools, hobbies and cultures and so on!

AIMS

Students learn about the everyday life of teenagers from different European countries. Students will improve their skills in English and find new friends.

They will learn new cultures, traditions and local culinary. Also, they will learn about their peers - where they go out to have fun, what activities they do throughout the day and what they are like. Thereby they can discover what's different, and what's the same.

WORK PROCESS

The project starts in September 2016 and ends in May 2017. The results of our student's work will be published in the Twinspace: PowerPoint presentations, Word documents, Vokis, Glogters and Padlets and so on. The students will also write and receive hand-written letters and postcards.

EXPECTED RESULTS

The results of our student's work will be published in the Twinspace: PowerPoint presentations, Word documents, Vokis, Glogters and Padlets and so on. The students will also write and receive hand-written letters and postcards. Students learn about the everyday life of teenagers from different European countries. Students will improve their skills in English and find new friends.
